

Application for Training Courses

For many years we have provided courses on cash register systems and software. These courses have been very popular so we have now expanded our current course range as shown below. You will all be aware technology moves quickly so its important to keep pace, especially as profit margins on low end cash registers is decreasing.

We are pleased to be able to offer new courses and pass on our considerable experience to you and your staff, which will give you confidence in supporting EPOS systems.

All courses are free of charge and are at our offices. A light lunch will be provided. Local accommodation can be arranged for an overnight stay if required.

COURSES AVAILABLE: (Please ✓ tick as appropriate).
